EGYPTIAN GLASS TOKENS.

$ 40.00 **1056** A remarkable lot, mostly Ommeyade, of the 8th and 9th centuries, sizes 9 to 33mm. Probably no two exactly alike. Dr. Nease, a specialist in these tokens, and who examined the lot states that there are only two or three collections of these known numbering over 400 specimens, which evidences their scarcity. The pieces are of various colors and are inscribed in several languages; some show fine iridescence. It is the owner's wish that the lot be not broken, so it is offered intact. Some of the pieces are worth $2 apiece. An unusual offering. **98** pcs.
